

INVITATION
Holidays Act Seminar

Duncan Cotterill is pleased to invite you to our Employment seminar.

As the Christmas and summer holidays draw nearer, questions often arise as to how best to deal with public holidays, closedown periods and calculating annual leave payments during this period.

This seminar will focus on these issues as well as covering the practical aspects of other leave-related matters including shift workers, sick and bereavement leave, alternative holidays and the interaction between the different types of leave.

We will also canvass potential changes to the Holidays Act 2003, as a result of the new National led government.
